PROJECTS

Migramix (<https://migramix.migracode.org>)

RoI: Led front-end development for Migramix at MigraCode, focusing on implementing CRUD functionalities for event organizers and designing features like event exploration from an internal API and database

EDUCATION HISTORY

Full Stack Developer

Institution: MigraCode Barcelona - 2023

Bachelor's degree in Nutrition and Dietetics

Institution: Central University of Venezuela (UCV) / 2004 - 2010

PROFESSIONAL EXPERIENCE

Front-end developer. Barcelona - Spain.

MigraCode. | Currently

- As a front-end developer, I led projects such as Migramix and Migramind, focused on artists and mental health, respectively. My duties included calls to external APIs and user interface development.

Thanks to my previous experience, I bring to the team strong communication skills, a solution-oriented mindset, creativity, and empathy to foster effective collaboration among team members.

Nutritionist. Barcelona - Spain.

Freelancer. | Currently

- Specialized in personalized design of meal plans and nutritional advice, offering remote services.

Nutritionist. Lima - Peru. (2019 - 2021)

Companies: Rapid Fit&Well, FS Team

- Specialized in designing personalized meal plans and providing nutritional counseling, integrating technological solutions:

I brought in a solid experience in designing and delivering meal plans through WordPress. Additionally, I played an active role in creating strategies and content for social media and the website. Furthermore, during this period, I honed my knowledge of dietary management. What sets my approach apart is my ability to integrate technological solutions and teamwork.

Nutritionist. Caracas - Venezuela (2011 - 2019)

Companies: NutriSport Center, Gold's Gym, AnggiFit

- Specialized in designing personalized meal plans and providing nutritional counseling based on nutritional and anthropometric assessments, both remotely and in-person:

With extensive experience in delivering tailored solutions to meet the individual needs of my clients, my flexible approach and commitment to healthy outcomes ensure personalized and high-quality service. I have actively engaged in various media platforms (television, radio, social media) for nutritional and sports education, as well as coordinated marketing and nutritional education activities.
